

# HEY ROSETTA!

"...it's an album that you absolutely need to hear if you're in the mood for being absolutely floored by something epic."

**i(heart)music.net**

"...the record is anchored throughout by faultless melody lines, often carried by the surging guitar. It's the tunefulness that will take Hey Rosetta! where they're going. Look out, world."

**The Coast**

"Hey Rosetta! is capable of lush beauty and fearless rock in every song...it never feels like a gimmick or sweetening, or an attempt at artfulness. Instead, it simply is what the band is about. Almost every track here leaves you with the feeling of accomplishment at the end, that you've been a witness to something big. I guess that makes them the next big thing, quite rightly."

**The Telegraph Journal**

"Not since the Arcade Fire has music been so liberally and emotionally explored as it has on this album.... This release is sure to catapult Hey Rosetta! into international superstardom adding another notch to the Canada's musical bedpost"

**noizemakesenemies.co.uk**

"...this six-piece outfit's unbelievably powerful album (produced by Hawksley Workman) instills goosebumps, bewilderment and pure relief in me as a listener. Their intense multi-instrumental build-ups, along with vocalist Tim Baker's profound deliveries that crack at just the perfect time, put me in utter awe of this feat."

**TV Guide**

"Into Your Lungs gives fans what they want: an album full of energetic, well-written, wonderful songs."

**Mondo Magazine**

"...never does the band veer off into overtly radio-friendly territory. Instead, it's pop music for those weary of pop music, simple progressions beaming with complexity."

**ECHO Weekly**

"With masterful track sequencing, Into Your Lungs displays just how well Hey Rosetta can pull off the delicate balance between folk and rock, while channeling a nonchalant, off-the-cuff attitude."

**Spun**

"The songs are like fantastic poetic chapters of an old classic storybook supported by very powerful music that swells and bursts beautifully."
